

# Grab a racquet, lace up some sneakers, and head to our Tennis Centre.

We have a range of tennis programmes available for all ages, from beginner to semi-professional. Our facilities include three championship-size outdoor synthetic grass courts and one indoor court with plastic surface, and we have a dedicated team including a tennis coach to help you sort out your swing. Enjoy the advantages of learning to play tennis with expert coaching, and have a fun workout at the same time. You can also meet new people by participating in various group activities.

Floodlights make it possible to have social events in the evening. Racquets and balls are available for rent, and on-site car parking is close to the Tennis Centre.
